WORK EXPERIENCE

Head Digital Designer & Web Developer at Titan Building Products

2024-Ongoing

Oversee design, development, and content creation for web, print, and video across multiple platforms.

- Designed and optimized user experiences and interfaces across web platforms and tools, leveraging Figma and Adobe XD.
- Develop and maintain multiple company websites using HTML, CSS, JavaScript, WordPress, and Shopify.
- Create print and digital assets such as web banners, installation guides, product images using Adobe InDesign, Illustrator, and Photoshop.
- Produce and edit Meta video ads, product videos and how-to content, in both long form and short form formats (Premiere Pro, After Effects).
- Support marketing with campaign graphics, email assets, and e-commerce visuals.
- Leveraged AI tools to streamline PHP-based feature development and automate tasks such as sending form data to CRMs via API integrations.
- Manage CRM platforms like Keap and Attentive to build and deploy compelling email campaigns.
